Keep Kids in School Update

Currently, we have received support for 80 students in our 200-student goal.

Samweli is the oldest of ten children, his father is 70, and their cattle loss has left them in poverty. Without our support, Samueli would have been pressured to leave home to look for a job in the big cities at 16 where life on the streets is dangerous. Instead, he is in his second year at high school thanks to many of you for your support through ADEA.

Hear from Samweli about his family's challenge with school fees and how ADEA's support has helped.

Just \$240 will cover a student's fees for an entire school year.

I am back in Kenya working with our local team to map our student and community support for 2023 and we still have students who need our financial help.

Contributions are still needed to reach our goal of helping 200 students stay in school. Please consider supporting one or more students to finish their school year.

Just \$120 will allow a child to finish the current school year.

\$240 will cover fees for an entire school year.

Spiritual Note

I took a walk to the river in Rombo recently. I felt God nudge me to do so. In this place all is dry. By the river was a great tree, green and bright in the morning light. I was reminded of the verse that encourage us to be like trees planted by the river of God, (Psalm 1) so that we can continue to grow and be alive even in hard times.

Many thanks for your interest and support.
